**DETAILED ACTION**

1. Applicant's Amendment filed on 3/6/2003 has been examined with newly added claims 19-39 and cancelled claims 1-18.

***Restriction Based on Original Presentation***

2. Newly submitted claims 19-39 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

- a) Original claims are directed to Application of Database or data structure and they are classified under 707/104.1.
- b) Newly added claims have the distinct subject matter and they are directed to Image transformation or preprocessing, classified as 382/276.
  - Identifying predetermined features within each image.
  - Classifying features in terms of descriptive variables.
  - Estimating model parameters.
  - Calculating a likelihood value for an image.
  - Ranking images in order of respective likelihood.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 19-39 are withdrawn from consideration

as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

***Conclusion***

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
